Jul 2025 – Present

QA/QC Engineer

- Developed 15+ SOPs, ITPs, and method statements aligned with ADNOC GS/RS; conducted hold-point inspections for 500+ ASME B31.3 piping joints — sustaining >95% first-time IR acceptance and weld repair rate <2.5%.
- Verified material heat numbers, MTC traceability, dimensional checks, and WPS/PQR compliance across all active work fronts; coordinated NDE (VT/MT/PT/UT/RT), hydrotest packs, and client witness points.
- Implemented CAPA and 5-Why RCA to resolve NCRs/CARs; reduced coating rework by 15% and managed MDR/turnover packages achieving zero major NCRs at handover.

Key Project: ADNOC Central Utility & Associated Systems — AED 50M | Zero major NCRs at handover
